Vermilion Community College

- Peter Doran (Biology) completed stream studies for two mining companies, helping the mining communities understand taconite mining discharge effects in local streams.

**SUMMARY**

Designed to enable faculty to pursue professional development more intensively than is normally possible, sabbatical leaves are an investment of the college/university in its academic future and reputation. Sabbatical leaves granted under the provisions of the collective bargaining agreements have permitted faculty to revitalize their teaching, improve their research skills, and maintain a vibrant, engaged, and up-to-date outlook on their profession.
